Please now proceed to the final page of the form to see our self-assessment checklist questions
Organisation Self-Assessment Checklist
Please tick the relevant box

The intention of our online map resource is to signpost vulnerable parents and HCPs to safe, inclusive, quality VCSE services. Therefore, this checklist helps us and you to review key criteria in order to be featured. As such, inclusion on the map is not automatic. To ensure the map features safe, inclusive, quality services, each application will be reviewed internally and, in order to safeguard users, this usually involves an informal chat once the checklist has been submitted.

However, the Hearts & Minds Partnership is not here to police the sector. We will not ask for copies of documents. Our aim is to support organisations in their development - if you are concerned that there are areas missing please do let us know and we can chat about this in the next stage.

	We don't have anything in place at the moment but we're working on it	We have started putting this in place, but it needs developing a bit more	This is an established part of our organisation and is under constant review as we grow and change	We would appreciate chatting with the H&M team about this as aren't sure how to answer it
